Installation and Service

REQUESTING SERVICE

Follow these simple steps when you need to order, change or stop your telephone service. Call our Customer Contact Center and speak with a customer service representative. Please be prepared to provide the following information:

- your full legal name
- your street address
- employment and credit information
- types of services you want
- your choice of long distance carrier
- information regarding your previous telephone number
- how you want your name to appear in the directory

COSTS TO BEGIN SERVICE

A one-time fee is charged to install or change your service. The use of telephone service for business purposes automatically subjects that service to business rates regardless of the type of premises where the telephone is installed. An advance payment or deposit may also be required.

If you need inside wiring or jacks, you have three options:

- You can have CenturyLink do the work at the cost of time and materials. Call our Customer Contact Center for a cost estimate.
- You can hire an independent contractor to do the work.
- You can do the work yourself.

CONNECTION CHARGES

Certain installation charges apply according to work performed. Charges could include:

- service order charge
- central office connection charge
- line connection charge
- wiring charge
- premise visit

DEPOSIT REQUIREMENTS

A deposit may be required from new applicants for service to guarantee payment for the service. If desired, the deposit may be paid in two equal installments. In lieu of a deposit, the Company will accept the written guarantee of another qualified customer.

The amount of a deposit will not usually exceed the amount of one month's local service and two month's toll service. Interest on deposits is credited to customer's accounts in January for the preceding year.

For existing customers, a deposit will be required or increased if service is suspended two times in a 12 month period; the customer failed to pay a bill before the close of business on the shut-off date within the last 12 months; the customer gave the LEC 2 or more checks which were returned unpaid for reasons other than bank error in the last 12 months; the customer did not pay bills by the close of business on the due date 2 times in a row or any 3 times in the last 12 months; during the last 24 months, the customer misrepresented his identity or other facts relevant to the conditions under which the customer obtained or continued service; the customer used service without authorization, tampered with the LEC's equipment, or inflicted damage to the LEC's equipment during the last 2 years; and the customer used more service than the estimate on which the LEC based the deposit.

When final discontinuation of service is made by the Company, the amount of the deposit, plus accrued interest, will be credited to the customer's account. A deposit shall automatically be refunded if a customer has for a consecutive 12 month period, paid all bills by the due date and rendered no check that was dishonored for reasons other than bank error.

Billing

Any unpaid accounts as of the due date of the bill will be mailed a "Shut-Off" notice. This notice will allow five additional days to pay the delinquent account prior to suspension of service. Suspension of service may be delayed when a "Serious Medical Condition" exists or when a "Delayed Payment Agreement" has been entered into with the Company. These options are available through the Customer Contact Center. When service has been discontinued, the Company will reconnect service as soon as the reason for the discontinuation of service has been resolved. If the reason for the suspension of service was unauthorized use of the service, the Company may discontinue service without notice. The utility may, prior to reconnecting service, require a reasonable payment of estimated service rendered or may refuse to reconnect service until ordered by the Commission.If a customer's service is disconnected due to non-payment and payment is subsequently received within seven days from the date of disconnect, the service will be reconnected and a reconnect charge may apply. If payment is not received within seven working days of disconnect, the customer's service will be permanently removed and the customer will need to reapply before service will be connected. A deposit and/or installation charges will apply. A copy of any commission file may be obtained by contacting the Company.

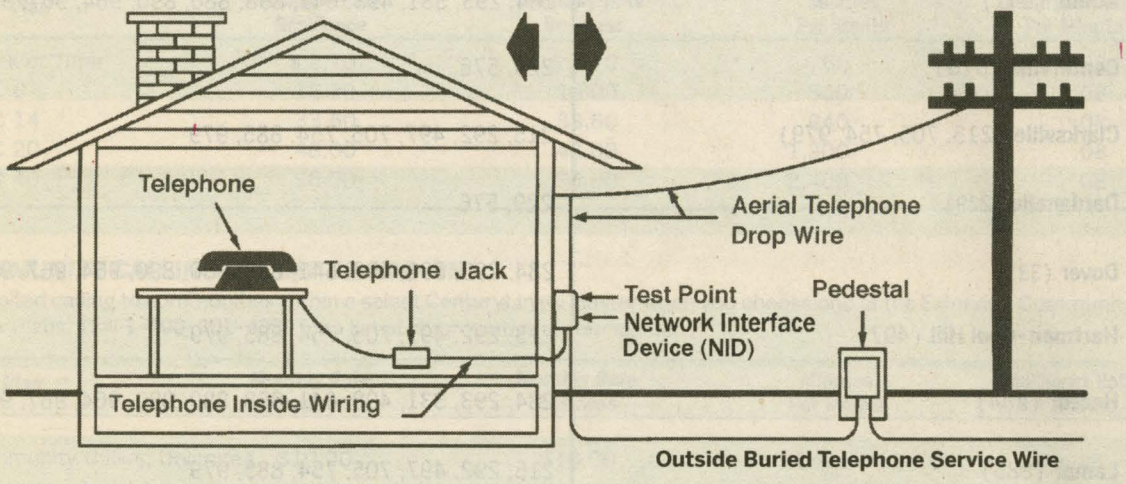
Repair



LOCATING THE PROBLEM

Telephone service problems can be caused by customer provided equipment (CPE), inside wiring, jacks, telephones, security systems, wireless accessories, modems and any other devices within your premises or the CenturyLink® network. We encourage you to follow the troubleshooting tips before you call Repair Service to determine if the problem is the CPE in your premises or with the CenturyLink® network outside your home.

If the problem is found to be in the CenturyLink® network (outside lines, switches etc.), the repair is completed at no charge.

If the source of the problem is your CPE, a trip charge may be applied and billed to your account. A trip charge applies when CenturyLink dispatches a technician who travels, at your request, to your premises and finds the trouble to be in customer provided equipment. The trip charge is not a repair charge; it is a fee for travel time. Repair of the equipment or wiring is based on the length of time required to perform the repairs and the cost of materials used.

SELF-CHECK/ TROUBLESHOOTING

Before contacting CenturyLink for repair, save time and avoid a trip charge by double-checking your CPE to pinpoint the problem and testing for dialtone at the test point located in the Network Interface Device (NID). This test point disconnects CPE from the CenturyLink® network to allow testing directly with the telephone company.

It's CenturyLink's responsibility if:

- There's no dialtone when testing at the Network Interface Device (NID).
- The problem still exists when testing at the NID.

It's a customer's responsibility if:

- Testing at the NID indicates good, clear dialtone.
- A telephone works in one jack but not another.
- There is a loose or broken telephone jack.
- The push buttons are stuck.
- The cords are worn.
- The cord clips are broken.
- The receiver buttons are stuck.

TESTING WITH THE NETWORK INTERFACE DEVICE (NID)

See the inside cover of the NID for step-by-step instructions.

LONG DISTANCE CALLING

DIRECT DIALING

Calls made without operator assistance are the most economical. Place the call by dialing 1 + the area code + the number and you will be charged the appropriate rate.

OPERATOR ASSISTED CALLS

There is an additional charge for calls requiring operator assistance. These calls are more expensive than calling card calls or calls dialed directly from your home or office.

When away from home, you can choose the long distance company you want to handle your operator-assisted calls. Many companies provide collect, person-to-person, third-number billed and credit card services. Their rates may vary. You may ask any operator for company identification and rate information before beginning your call.

Person-to-Person Calls

Dial 0 + the area code + the number. Tell the operator you're making a person-to-person call to a specific person. You will be charged for the call when that specific person answers. You can place a person-to-person call when you call collect, use your calling card, or charge your call to a third number.

Third Number Billing

Dial 0 + the area code + the number and tell the operator you want to charge your call to a third number. If you're calling from a public telephone, the operator will call the third number to make sure the charges will be accepted. The call will not go through if the operator cannot get approval.

Collect Calls

Dial 0 + area code + the number and tell the operator you are making a collect call. The operator will hang up when someone at the number you have called accepts the charges.

BUSY LINE VERIFICATION

Some operator service providers offer busy line verification. There may be a charge for this service.

TIME AND CHARGES REQUEST

Dial 0 + the area code + the long distance number and tell the operator you want time and charges. When you finish the call, a computerized voice will return to the line to tell you what you will be charged.

CENTURYLINK® CALLING CARDS

CenturyLink offers calling cards for a $2.99 monthly administrative fee. You can enjoy the convenience of an 800 number that provides access to telephone service when you are away from home.

To place a call, dial the 800 access number noted on the front of your card. At the chime, enter your calling card number. You will then be prompted for the area code and number of the party you are calling.

If your calling card is lost or stolen, call our Customer Contact Center immediately. The customer is responsible for all calls made on a calling card.

SELECTING A LONG DISTANCE COMPANY

All telephone subscribers have the option to choose long distance companies for their 1+ calls.

IntraLATA long distance calls are calls that you place from your telephone to any community within your LATA that is not local (EAS.) InterLATA long distance calls are calls that you place from your telephone to any areas that are not considered local, EAS, or IntraLATA. Interstate calls are those that you place from your telephone to any location in another state. IntraLATA, InterLATA and interstate calls are long distance. The long distance company(ies) you have authorized will handle these calls.

"Equal access" allows you to choose the company you want to handle both types of calls. Once you have notified CenturyLink or your long distance provider of your choice, all your long distance calls will be automatically handled by this provider whenever you dial 1+ to make the call.

CALLER ID

Find out who's calling before you answer the telephone. Caller ID displays the telephone number and/or name and number of the caller on a special display unit. This includes local and most long distance calls. Non-published or non-listed numbers will be displayed to subscribers of Caller ID Service, unless Selective Call Blocking is utilized.

SELECTIVE CALL BLOCKING

If you do not wish to have your name or number displayed when you call others who subscribe to Caller ID, press *67 before placing your call. It is necessary to repeat this procedure on each call you wish to make private. There is no charge for Selective Call Blocking service and nothing to order.

CALL WAITING

Call Waiting alerts you to a second incoming call when you are on the telephone. You will hear a tone during a call and the person calling will hear normal ringing until you answer.

ASSISTANCE IN ESTABLISHING TELEPHONE SERVICE

Pursuant to requirements of the Telecommunications Act of 1996 (47 USC 214) CenturyLink, Inc. gives notice that it provides the core services required for federal universal service support. Such services are as follows:

(1) single party service,
(2) voice grade access to the public switched network,
(3) DTMF signaling or its functional equivalent,
(4) access to emergency services,
(5) access to operator services,
(6) access to interexchange service,
(7) access to directory assistance, and
(8) access to toll blocking for qualifying low income consumers.

Low-income customers may be eligible for special discounted local service rates and reduced installation charges. See the following information regarding telephone assistance charges.

LIFELINE TELEPHONE ASSISTANCE PROGRAM

CenturyLink participates in a program to make residential telephone service more affordable to eligible low-income individuals and families. This program, established by the Federal Communications Commission, offers discounted basic local service to qualified customers. In addition, service deposits are generally waived for customers electing to place toll restriction on their lines. Monthly charges for toll restriction will be waived for customers requesting to have that restriction on their account.

Who is Eligible for Telephone Assistance?

Eligible customers are those that meet eligibility standards as defined by the FCC. Residents who live on federally recognized Tribal Lands may qualify for additional Tribal benefits if they participate in certain additional federal eligibility programs.

The Lifeline discount is available for only one telephone per household, which can be either a wireline or wireless telephone. A household is defined for the purposes of the Lifeline program as any individual or group of individuals who live together at the same address and share income and expenses. Lifeline service is not transferable, and only eligible consumers may enroll in the program. Consumers who willfully make false statements in order to obtain Lifeline telephone service can be punished by fine or imprisonment and can be barred from the program.

If you have questions or believe you may qualify for these benefits, please call your CenturyLink Residential Customer Service Representative.

ARKANSAS RELAY SERVICE

The Americans with Disabilities Act, signed into law in July, 1990, requires that all telecommunications utilities provide access to their services by Teletypewriters (TTY). To make a Voice to TTY or a TTY to Voice call, a Relay Service must be available. Specially trained personnel, known as Communication Assistants (CAs) act as a go-between and "relay" calls between deaf, hard of hearing, or speech impaired persons and the parties they call.

In order to avoid the necessity of each telephone utility establishing its own Relay Service, nationwide each state has chosen to set up a single statewide Relay Service. Each statewide service must be accessible toll-free from anywhere in the state, and must provide 100% confidential, professionally handled calls.
There is no extra charge for using Arkansas Relay Service (ARS), which is available 24 hours a day, 7 days a week. Charges for long distance calls are made at tariffed discount rates as if the call was a direct call.

Arkansas Relay Service - 7-1-1 or

TTY Users **1-800-285-1131**
Voice Users.....**1-800-285-1121**

Do not call ARS for emergency help unless you cannot reach **9-1-1** or **9-1-1** is not available in your area.

SERVICES FOR THE DISABLED

If you are blind or hearing impaired or know someone who has a physical disability causing telephone hardship, the Telephone Company can help. For more information about special equipment for the disabled, call our Customer Contact Center.

HARASSMENT CALLS

It is against the law to make threatening, obscene or nuisance calls. Should you be the victim of a threatening call, report it immediately to the police. If you do receive obscene or nuisance calls and have identified them as such, follow these suggestions:

- Hang up.
- DO NOT provide any information about yourself.
- Advise your children to do the same.

If the calls continue, contact the police and a CenturyLink® representative for advice. Often, changing your number will resolve the problem.

(If available in your area, utilize Call Trace and report their number to the police. A charge may apply for this service).

900/976 NUMBER BILLING

This statement explains your billing error rights with respect to telephone-billed purchases made using interstate 900/976 pay-per-call services that are billed to you through CenturyLink. This information is provided under the Federal Telephone Disclosure and Dispute Resolution Act.

This is the procedure that you must follow to notify CenturyLink of a billing error and the steps that either CenturyLink or the long distance company must take in response to your notice. You may provide notice of a billing error to CenturyLink by telephone or in writing.

If you write, you should:

- Give us your name or the customer's name, and telephone number to which the charge was billed;
- Tell us the date and amount of the error, and the type of error you believe occurred; and
- Tell us why you believe it was an error.

You should contact CenturyLink first, since we have an agreement to receive billing error notifications from customers. You may provide a notice to the long distance company instead, and it may ask you to contact us directly, and provide to you our name, mailing address, and business telephone number, even if it also sent your billing error notice to us.

For billing error claims regarding 900/976 service charges:

Call the number on your bill listed with the 900/976 charges within 60 days of receiving the bill.

- Verbal notification is sufficient to begin a billing review.
- Payment of disputed 900/976 service charges is not required during the review period.

Written acknowledgement of your dispute must be provided to you within 40 days of receiving your notice if:

- The error has not been corrected or
- The billing review is not completed.

The billing review must be completed within 90 days and:

- An explanation must be provided to you if the bill was correct or
- You should receive a written notice of the amount you owe and the payment due date. If you fail to pay the amount that you owe, you may be reported as delinquent, but
- The name and address of any party to which you were reported for delinquency must be provided to you.
- If you do not agree with the explanation and if you so give notice before the payment due date, any delinquent report must state that you dispute the claim.
- Any party receiving the delinquent report must also be advised in writing when the matter is settled

If these rules are not followed, the first $50.00 for each 900/976 service charge in question cannot be collected even if your bill was correct.

The Interexchange Carrier or Information Provider may pursue collection of unpaid 900/976 charges through an indepen-dent collection action.

Nonpayment of 900/976 service charges or charges for similar types of service will not result in disconnection of your local or long distance service. However, access to 900/976 numbers may be blocked for nonpayment of legitimate charges. You should not be billed for 900/976 services that are not offered in compliance with federal laws and regulations.

You may obtain blocking of 900/976 services at no charge by calling our Customer Contact Center at the number listed on your telephone bill.

TELEMARKETING CALLS

Avoid the frustration sometimes associated with telemarketing calls by following these five steps:

- Find out who is calling; always secure the name of the company and individual with whom you are speaking.
- If you are interested in the product or service the caller is offering, request that information be sent to you via mail. Specify that you are not agreeing to purchase anything, but would like to review the information in writing.
- If you are not interested, politely interrupt the caller and end the conversation.
- If you are sure you do not wish to receive future solicitations from that company, ask to be removed from the company's list.
- DO NOT GIVE YOUR CREDIT CARD NUMBER unless you are certain the call is legitimate.

You may place your telephone number on the National Do Not Call Registry by calling **1-888-382-1222, (TTY 1-866-290-4236)** or online at **WWW.DONOTCALL.GOV.**

CUSTOMER INQUIRIES

A customer may verify the accuracy of a bill by contacting the Customer Contact Center. Our representatives are trained to handle customer inquiries promptly. Please contact our service representative and state your complaint. If you have a suggestion for resolving the complaint, please state it. Write down the name of the person to whom you talked.

If you are dissatisfied with the results of your complaint you may contact the Arkansas Public Service Commission. The number is **1-800-482-1164** (Little Rock **682-1718**) or write to 1000 Center Street, P.O.Box 400, Little Rock, AR 72203-0400.

SERIOUS MEDICAL CONDITION

The Company will reconnect or postpone the discontinuation of service to a residential customer, up to 30 days, if the customer presents a certificate from a physician stating that discontinuation of service will cause substantial risk of death or gravely impair the health of the customer, a member of the customer's family, or other permanent resident of the premises where service is rendered. The certificate may be renewed one time for an additional 30 days. The contents of the certificate must identify the medical condition, specify the effect of discontinuation of service, and specify the time during which discontinuation of service will aggravate the medical emergency. This certificate must be presented to the utility within 7 days. During the period that discontinuation of service is delayed, the residential customer shall be liable for all service rendered by the utility.

DEFAULT OF PAYMENT OR OTHER VIOLATION OF REGULATIONS

Charges for exchange service and facilities are due in advance. Charges for rent and long distance services are due when the bill for such service is rendered. All bills are payable by mail or at the Telephone Company's Greeter Station. Failure to receive a bill does not exempt the subscriber from prompt payment of his account. The subscriber is held responsible for all charges for exchange service and facilities furnished at his request, and for all long distance service furnished at his station or stations, including charges for toll messages received at his station or stations on which the charges have been reversed. In the event of default of payment of any sum for either exchange or toll service or both, the use of foul or profane language, the impersonation of any other person with fraudulent intent, or any other violation of the Telephone Company's regulations, the Telephone Company may suspend service.

PROCEDURES TO AVOID DISCONTINUATION OF SERVICE DURING EXTENDED PERIOD OF ABSENCE

If you will be absent during billing periods and wish to avoid discontinuation of service, call the Customer Contact Center of the Company. The Company will arrange for prepayment of the account or enter into a vacation rate, if available.

The customer can arrange to have bills coming due during a period of absence mailed to an alternate address or third party during their absence. Customer's may also enroll in our automatic bank draft program. (see page 5 for more details)

SPECIAL DISCONNECTION PROVISIONS FOR CUSTOMERS 65 AND OLDER OR INDIVIDUALS WITH DISABILITIES

To ensure protection of customers 65 and older and customers who are individuals with disabilities, the Company will take the following steps:

- Company personnel will contact by telephone or in person to arrange installment or deferred payment of any delinquency.
- Notify customer of right to third-party notice before termination or service.
- Provide assistance to customers wishing to make arrangements with service agencies for payment of telephone service.

DELAYED PAYMENT

- You pay a reasonable portion of your bill; and
- You agree in writing to pay the balance of your bill in reasonable installments; and
- You agree in writing to pay in full all future bills during the period of the agreement by due date.

In arranging the installment payment agreement, the Company will consider the customer's ability to pay, the size of the unpaid account, the customer's payment history, and the length of time and reasons the account has not been paid.

The Company may not require more than 1/4 of the overdue bill as the down payment in order to enter into a delayed payment agreement. The Company shall allow the customer to make equal installment payments for at least three months from the date of the down payment. The down payment shall not be considered an installment payment.

The Company does not have to enter into a delayed payment agreement if the customer has failed to keep the terms of a delayed payment agreement in the last twelve months.Service is subject to suspension if the terms of the agreement are not kept.

Helpful Information

CALL BEFORE YOU DIG

Any person planning to excavate should contact Arkansas One Call at **8-1-1** or **1-800-482-8998**. To avoid delays, call 2 to 10 days before you dig or drill. Be prepared to give the exact location of the proposed excavation including the county, city or township, section and 1/4 section number, the type of work you'll be doing, when you plan to start, and how long you think it will take. The location of any underground cables in the area will be given to you. Cable location services are free.

OWNERSHIP OF TELEPHONE NUMBERS

CenturyLink owns all telephone numbers. CenturyLink reserves the right to change any customer's number as may be required.

TELEPHONE SAFETY

Following these simple rules and teaching your family the basics regarding telephone safety is strongly encouraged by CenturyLink.

- Do **NOT** use the telephone near water. Water contact could cause electrical shock.
- Do **NOT** use the telephone during an electrical storm. There is a remote risk of electrical shock occurring from lightning when you use the telephone during a nearby electrical storm.
- Do **NOT** use the telephone to report a gas leak in your home. The telephone contains electrical contacts that could generate a tiny spark when the handset is lifted. While the possibility is a remote one, this spark could trigger an explosion.

OUR EMPLOYEES CARRY ID BADGES

International Calling

DIRECT DIALING

To dial international calls direct, dial in sequence:

1. The International Access Code — 011
2. The Country Code
3. The City Code
4. The local telephone number
5. The "#" key — where telephone is equipped with Touchtone dialing. This will speed your call along.

For example, to make a call to the city of London, you would dial:

011	+ 44	+ 20	+ ___
International Access Code	Country Code	City Code	Local Number

If you subscribe to a long distance service, call your supplier for dialing instructions.

OPERATOR-ASSISTED CALLS

To dial operator-assisted international calls, dial in sequence:

1. The International Access Code — 01
2. The Country Code
3. The City Code
4. The local telephone number

For example, to make an operator-assisted call to the city of London, you would dial:

01	+ 44	+ 20	+ ___
International Access Code	Country Code	City Code	Local Number

If you subscribe to a long distance service, call your supplier for dialing instructions.

Some countries have increased the number of digits included in their local numbers beyond that supported by many telephone company's networks. This primarily affects new telephone numbers. In general, numbers that are already assigned will not be affected. If you have difficulty completing a direct-dialed international call, please contact your international operator or dial 0 for assistance.

Emergency Preparedness

Emergencies and disasters can occur anytime, anywhere. Some are primarily seasonal and allow for certain preparations, other occur without warning. Planning ahead and making provisions for your family's needs can make a big difference in your ability to cope with emergencies. Detailed information on emergency preparedness is available from the American Red Cross and city and county agencies.

FLOODS AND FLASH FLOODS

Floods claim an average of 263 lives every year. Flood waters only one foot deep can sweep you off your feet. If you live in a flood-prone area, it is important to be prepared in case flooding does occur. Determine your nearest safe area above flood waters. Develop an evacuation plan. Remember that many roads, bridges, and existing drainages may be swept away by flood waters.

A flood WARNING means flooding is occurring or will occur soon. **If the National Weather Service issues a flood WARNING for your area, you should:**

- Turn off your utilities if your home is likely to be flooded.
- Fill your car's gas tank.
- Evacuate if you are told to do so. (See the following section on evacuation procedures.)

Flash floods are rapidly developing floods that can happen with little or no warning. Flash floods are most often caused by intense rainfall, severe thunderstorms, or breaks in a dam, levee, or dike. A flash flood WARNING means you may have only a very short time to escape. A flash flood can happen so rapidly that you may not even get a warning.

If the National Weather Service issues a flash flood WARNING for your area or if you suspect a flash flood is occurring, you should:

- Leave low-lying areas immediately.
- If you are driving, stay away from creeks and open ditches. If your car stalls in rapidly rising waters, abandon it IMMEDIATELY and climb to higher ground. The rushing waters from floods and flash floods are extremely dangerous.

Remember:

- Police barricades are there for your protection. DO NOT DRIVE AROUND THEM
- Flood waters covering roads and bridges have more force and power than you think.
- Walking or driving through flood waters is the most dangerous thing you can do.

EVACUATION PROCEDURES

You will receive instructions to evacuate the area in one of the following ways:

- The Emergency Alert System (EAS).
- A uniformed agent of law enforcement or the fire service will contact you.
- Mobile sirens, police, fire or other PA systems will be used to alert you.

Shelters will be available for residents who cannot stay with friends or relatives in other areas. The Red Cross has prearranged shelter sites throughout the community. If shelters need to be opened for emergency housing, listen to the EAS for the exact locations.

If there is time, take a moment to gather a few important items you may need. Do this as quickly as possible and leave as soon as you can.

IF YOU CAN, BRING THESE ITEMS WITH YOU:

- Prescription drugs.
- Food–if needed for a special diet.
- Eyeglasses or contact lenses.
- Change of clothing.
- Personal items–toilet articles, documents, photo albums.
- Bedding–sleeping bag, pillow, blankets.
- Baby or child supplies–diapers, food, toys.
- Money, credit cards, checks.
- Proper identification.
- Pets–provisions will be made for pets. They will stay in separate housing, but bring food if possible.

TORNADOES

If you see or hear a tornado, seek shelter immediately. Bring a portable radio for news and weather updates. Lie flat and protect your head and eyes.

Here are some guidelines for seeking shelter:

In homes: Stay away from windows, doors, and outside walls. Go to the basement. If the house doesn't have a basement, go to a first-floor bathroom, closet, or another room at the center of the house. If possible, get under heavy furniture or cover your head with blankets or pillows.

In schools: Stay away from windows and large areas such as auditoriums and gymnasiums. Go to the basement. If there is no basement, go to a small interior room or a hallway on the lowest floor.

In public buildings: Stay away from windows. Don't go to your car. Go to a designated shelter area or to an interior hallway or a small room on the lowest floor.

In mobile homes: Get out immediately. If there isn't a reinforced building or underground shelter nearby, take cover in a ditch or valley.

NUCLEAR PLANNING AND RESPONSE

What is radiation?

Everything on earth is made of tiny particles called atoms. Some atoms give off energy. This energy is called radiation. Radiation is a form of energy that moves in waves or particles. It is found throughout the natural environment in the form of light, heat and radio waves. Nuclear radiation comes from radioactive material, such as uranium. There are also naturally occurring radioactive atoms in everything in the environment, even your own body. While you cannot hear, see, feel, taste, or smell radiation, it can easily be detected with special equipment. Radiation is a very natural part of our daily world. We all receive very small amounts of radiation each day from the air, food, the earth, and building materials. We are also exposed to radiation from other sources such as x-rays used by doctors and dentists and from consumer products such as TV sets. The amount of radiation that a person gets is measured in millirems. In Arkansas, the average radiation exposure from naturally occurring and man-made radiation is up to 180 millirems per year. Most studies indicate that radiation exposure of up to several thousand millirems per year, results in no measurable effect.

What is an emergency?

An emergency at a nuclear power plant could be caused by many things. State and local officials will be notified of any emergency that could cause the nuclear plant to become unsafe. There are four classes of emergencies at nuclear power plants:

NUE – notification of unusual event is the least serious emergency class. It means that something out of the ordinary has happened. People living in the area should not have to take any action.

ALERT – this class means plant safety could become a problem. State and local officials will go to their emergency centers to follow the situation. The general public should not have to take any action.

SAE – site area emergency, means the public might be affected. You should hear the Emergency Warning System. Tune in to your local radio stations for information. State and local officials will take action to protect those living in the area.

GE – general emergency, is the most serious emergency class. State and local officials will take action to protect people in the area. Stay tuned to your local radio stations for instruction.

Within 15 minutes of the time an emergency is declared at Arkansas Nuclear One, Entergy Operations, Inc. must notify state and local officials. Through use of the Emergency Warning System, state officials can notify the public of an emergency within 15 minutes. You will hear a steady siren signal lasting about 3 minutes.

PLEASE STAY CALM!

When you hear the sirens, listen to one of these local radio stations for information:

What about Sheltering?

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Remain indoors until told it is safe to go out. Use the telephone only for medical, fire or other extreme emergencies. If traveling in a vehicle, close winders, air vents and put the air conditioner on the maximum setting if needed. Always listen to your local radio station or NOAA weather radio for further instructions.

What about staying indoors?

Staying indoors simply means to do that: stay indoors. It is similar to sheltering, but instead of turning off air conditioning and heat, you leave them running if necessary. Since mid-summer heat in Arkansas can often climb above 100 degrees, closing your home without air conditioning could present more of a health hazard than the one

presented by a release at ANO. The filters in your home's heat and air system will act to filter some of the radioactive particulates that might be in the air in your areas because of a release at the nuclear plant. The Health Department believes this to be a logical and safe alternative to sheltering during weather extremes.

EVACUATION PROCEDURE

Look at the map on page 27 and find out which Care Center you would go to and how you would get there. If an evacuation begins, don't rush, you'll have time. When you leave home, tear out the "NOTIFIED" tag from the back of your Emergency Instruction Brooklet. Attach the tag to the front of your home so officials will know you have gone. As you leave the area, tell a neighbor about the evacuation. They may not know about the evacuation and may need a ride to a Care Center. You may need to stay at the Care Center for two or three days. This will depend on conditions at the plant. Listen to the radio for current information.

HOME SAFETY TIPS

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Use telephones only for medical, fire, or extreme emergencies. Remain indoors until told it is safe to go out. If traveling, close auto windows and vents and put air conditioner on maximum, if needed. Listen to you local radio station for further instructions.

SCHOOL EVACUATION PROCEDURES

Schools will be notified before the general public and students will be taken to a Care Center. Parents should not attempt to pick up their children at the schools since this will create a traffic problem. Once children are registered at the Care Center, they may leave with a parent or legal guardian. If it is necessary, students will be monitored for radioactive contamination.

WHAT ABOUT MY PETS?

For reasons of health and safety, it is strongly recommended that pets not be brought to any designated care center, however, it may be necessary under certain circumstances to do so. To facilitate the reasonable accommodation of common household pets, measures designated to assure a safe stay at the center are required. While pets will not be allowed inside the actual care center, facilities will be provided for the housing of your pet. Animals should be transported in, and remain housed in, portable containment devices while at the care center. Care for these animals, such as providing food and water, will be the responsibility of the owner. Veterinary care needed by individual animals will be provided by the pet's owner. Liability for any harm or damage caused any animal while at the care center will also be the responsibility of the owner.

River Valley, AR Yellow Pages Classified Directory

The Berry Company ("Berry") publishes directories on behalf of CenturyLink. Those directories include classified, or "Yellow Pages", sections. The Yellow Pages contain the listings of area telephone subscribers, classified under one or more directory headings for the purpose of identifying the nature of their business or profession. Berry and CenturyLink assume no responsibility for errors or omissions with regard to any free listings, or with regard to Yellow Pages listings. Such errors or omissions of free items may be corrected in a subsequent issue if reported by letter to Berry. Liability for errors or omissions in paid-for listings and advertising, which includes Yellow Pages listings, is limited to, and shall not exceed, an abatement of the charges for such listings or advertising during the life of the directory.

Certain businesses or professions are subject to regulation by various governmental bodies or regulatory agencies,which require special approvals or the issuing of a license to do business.The regulation of those businesses and professions may also govern the manner and content of the advertising in the directory. It is solely the responsibility of those advertisers to assure their advertising complies with any regulation to which they are subject. Neither Berry nor CenturyLink assumes any responsibility or obligation that the organization of the directory or any advertising appearing in the directory comports with any regulatory scheme to which any advertiser is subject. Neither CenturyLink nor Berry warrant or represent that the professions and businesses listed in the Yellow Pages are validly authorized or licensed to do business. Questions relating to whether a subscriber advertising in the Yellow Pages is duly authorized or licensed should be directed to the appropriate governmental body or regulatory agency responsible for regulating such a business or profession.

Prices, percent discounts and offers listed in advertising, are listed at the advertiser's request. The advertiser is solely responsible for its content and obligation of fulfillment.

All real estate advertised herein is subject to the Federal Fair Housing Act of 1968 which makes it illegal to advertise "any preference, limitations, or discrimination based on race, color, religion, sex, or national origin, or intention to make any such preference, limitations, or discrimination."

Weddings are one of the most important days of the bride and groom's lives. Months of preparation and planning go into creating a unique celebration of the wedded couple's love. Pressure to fashion the "perfect day" can lead to stress and anxiety. A well organized and thought out event will be much more enjoyable than one that is disorganized and chaotic. - ☐ ring pillow, garter, candles, etc.
- ☐ Buy your wedding bands
- ☐ Make reservation for bridesmaids luncheon

Two Weeks Before:

- ☐ Reconfirm the accommodations for out-of-town guests
- ☐ Discuss with hairstylist your look for wedding day
